Card Description

Like The Death card, The Devil card is incredibly misunderstood. The card features, Baphomet, the Horned God. While Baphomet is a neopagan god that unifies several dichotomies, man/animal, male/female, good/evil, he has incorrectly been interpreted as simply an illustration of evil. Traditionally speaking, Baphomet can illustrate the id within all of us. The Devil card encourages the discovery of things within us that we avoid addressing.

.

For more information about The Devil card, check out A. E. Waite's description [here](#)

.

Point 1 BAPHOMET'S POSE

Baphomet's pose is a reiteration and subversion of the angels pose in

The Lovers

card. His hands are also a subversion of

The High Priestess

pose. While

The High Priestess

hands say as above, so below, Baphomet's hands are open, saying that everything is revealed; there is no mystery in life.

Point 2 BAPHOMET'S HEAD

Baphomet's head is that of a goat. Its triangular shape points downward, not only to illustrate the primacy of the material world at our feet, but also to subvert the traditional upward triangle of the trinity.

Point 3 INVERTED PENTAGRAM

Between Baphomet's horns, there is an inverted pentagram. This illustrates the darker versions of occultism. While many sects of religion use an upright pentagram as a positive symbol, the inverted pentagram subverts that effort.

Point 4 THE TORCH

In Baphomet's left hand he holds a downward facing torch. Like many of the symbolism in this card, the

upside-down torch subverts the traditional religious objective of bringing light into the darkness.

Point 5 THE BLACK BOX

Baphomet crouches with his goat feet on top of a black box. The box bears some resemblance to the holy of holies of Islam, the Kaaba. It can illustrate the unreflected self or the unknown within a non-mysterious world.

Point 6 THE POSES OF THE HUMANS

Like Baphomet's pose, the poses of the humans subvert the poses of the humans in

The Lovers

card. While the lovers were free in the Garden of Eden, the humans here are trapped in the fires of Hell.

Point 7 TAILS OF THE HUMANS

The two humans each have a tail. The woman's tail is made of grapes while the man's tail is made of fire. The grapes and fire symbolize drunkenness and lust, two overindulgences. The two tails are also subversions of the two trees in

The Lovers

card, one being the fruit of knowledge and the other being the fire of life.

Point 8 CHAINS

Chains wrap around the necks of the two humans and connect them to the black box Baphomet stands on. While the chains appear to trap the humans, they are loose around their necks. The humans can escape any time they want. Being with Baphomet is a choice.

Tarot Reading

Upright

An Upright Devil suggests that something is holding you back. There is some co-dependent attachment, be it a substance or a relationship, that is preventing you from performing your best. Self-analyze and observe where your motives are coming from. If they are coming from anywhere but yourself, consider a realignment. On the positive side, an Upright Devil could suggest a healthy exploration of your sexuality. Take a walk on the wild side and come back with a greater understanding of yourself.

Reverse

A Reverse Devil can suggest that something great is in your future if only you detach yourself from the things that hold you back. While an Upright Devil has an ambiguous future, a Reverse Devil has an optimistic one. If you try really hard to maintain self-reliance, rewards will come.

A Reverse Devil could also suggest that there is an unknown secret within you. Are you hiding from an aspect of yourself? Embrace who you are and wear the secret on your sleeve.

(The above image is a copy of The King of Pentacles card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

The King of Pentacles represents the attainment of spiritual maturity. He sits on his throne next to his big castle. Grapes surround him as he enjoys his material possessions. The King of Pentacles suggests we have authority over our wealth and encourages us to help others attain authority over theirs.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The King of Pentacles card, check out A. E. Waite's description

here

.

Point 1 KING

The king sits on his throne with a scepter in one hand and a pentacle in the other. It is unclear if his eyes are closed or if they are looking down. In any case, the king appears comfortable in his position, showing no signs of anxiety or paranoia.

Point 2 GRAPES

All across his robe, there are designs of grapes. Like in the

Ten of Pentacles

, grapes illustrate fertility and wisdom. As man enjoys the pleasures of wine, the king enjoys the pleasures of his material possessions. He lacks any arrested development, reigning with confidence.

Point 3 BULLS ON THRONE

While the

Queens

throne had ibexes on it, the king's throne has four bulls carved into its stone. The bull is an old symbol for the earth, the element represented in the pentacles suit. The bulls on the four corners of the throne reflect the four corners of the earth.

Point 4 CASTLE

To the right of the card there is a large castle. Unlike the city behind the

Four of Pentacles

, the castle here is owned by the king. It represents the security and strength of material possessions. The king rules the castle as he rules the material world.

Point 5 FOOT ON STONE

Having one foot stand above something is traditionally viewed as a sign of dominance. The king therefore rules the material world. As the vines connect to the grapes, the king's foot connects to the world, becoming an extension of him.

Tarot Reading

Upright

An Upright King of Pentacles illustrates material security. Your needs are met, and the works of your hands are growing. Perhaps you are planning to retire or are ready to wrap up a years long project. An Upright King of Pentacles encourages you to maintain your wealth while also helping others to achieve their material goals.

Reverse

A Reverse King of Pentacles encourages you to reexamine your relationship with wealth. There is a fine line between the regal King of Pentacles and the miserly

Four of Pentacles

. Makes sure that you are not placing material possessions above your relationships. Wealth is a blessing only in its ability to bless others.

(The above image is a copy of The Queen of Pentacles card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

The Queen of Pentacles sits on her throne in the middle of a garden while staring lovingly at the pentacle in her lap. The card illustrates authority through compassion. In stead of ruling with an iron fist, the queen allows things to grow on their own. In her patience, she becomes one with the world around her.

or check out one of our recent arrivals

here

.
For more information about The Queen of Pentacles card, check out A. E. Waites description
here

.
Point 1 QUEEN

Rather than sitting upright and stiff on her throne like other queens, the queen in this card is stooping over the pentacle in her lap. She looks upon the gold coin with love and care, as if the pentacle is her child.

Point 2 PENTACLE

Rather than holding the pentacle in the tips of her hands, like in the

Page

and

Knight

cards, the queen holds it in her lap. This full embrace of the coin shows an intimacy that is lacking in the more objective illustrations in the suit.

Point 3 FLOWERS

Surrounding the queen and throne are colorful flowers. The tilled land found in the

Knight

card has blossomed into a sweet-smelling garden. A reiteration of the

Nine of Pentacles

, the flowers reveal the queens connection with nature.

Point 4 RABBIT IN CORNER

In the lower righthand corner of the card, their hops a rabbit. Rabbits are typically symbols of fertility. The

creature therefore adds to the themes of harvest, represented by the flowers and of intimacy, represented by how the queen holds the pentacle.

Point 5 IBEX ON THRONES ARM REST

The arm rests of the queens stone throne are carved images of ibexes. The ibex is a creature the thrives in incredibly arid climates. Its presence in the card illustrates the longevity and persistence of the pentacle suit.

Tarot Reading

Upright

An Upright Queen of Pentacles illustrates intimate authority over the material world. Perhaps you are nurturing a garden or raising a child. An Upright Queen of Pentacles encourages you to care for the things you care about. In our cynical world, genuine affection can be hard to come by. Break with the status quo and love the things you love.

Reverse

A Reverse Queen of Pentacles encourages you to direct your potent nurturing energy inward. It is admirable to spend your caring about those around you but remember, in order to care for others, you must first care for yourself. Take a spa day or meditate. Do whatever relaxes you so that you can have the energy to care for everybody else.

(The above image is a copy of The Knight of Pentacles card in a standard Rider-Waite Tarot deck. The 6 symbols pointed out above are explained below.)

Card Description

The Knight of Pentacles stands firmly upon tilled ground, gazing into the complexities of the pentacle. He is heavily armoured and ready for anything that may come his way. The Knight of Pentacles illustrates being eternally prepared to enact your vision whenever the time is right.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

[here](#)

or check out one of our recent arrivals

[here](#)

.

For more information about The Knight of Pentacles card, check out A. E. Waite's description

[here](#)

.

Point 1 KNIGHT

Unlike some of the other knights in the minor arcana, the knight of pentacles is calm and upright, carefully holding the pentacle up to the morning light. As one would expect from the material suit, the knight is heavily armored, ready for any battle that may come his way.

Point 2 HORSE

Distinct from other horses, the horse in this card is black and apparently standing still. His black color provides a stark contrast to the yellow background and causes the whole knight to stand out in the card.

Point 3 PENTACLE

Like the pentacle in the

Page

card, the pentacle here is the same color as the background, causing it to blend into the sky. While other knights are brash and headstrong, the pentacle forces the knight to be keen of his surroundings.

Point 4 HELMET PLUME

The plume coming out of the helmet is green and leafy. In contrast to the traditional red plume, the green plume connects the knight to the earth element. He is one with nature similar to the figure in the Nine of Pentacles

.

Point 5 RED BRIDLE

Clothing the horse in another contrasting color is a red bridle. The horse and knight might be standing still, but the red bridle suggests a deeply seated passion that mimics the charging horses of other knights.

Point 6 TILLED LAND

In juxtaposition with the green fields found in the

Page

card, the land here is tilled farmland. The ground that the knight is standing on is full of potential growth and sustainability. The ground thus illustrates the spiritual potential of a knight charging to manifest his vision.

Tarot Reading

Upright

Like the

Eight of Pentacles

, an Upright Knight of Pentacles illustrates the execution of incredible work ethic. Perhaps you are in the middle of a professional project or are going through an exercise regime. An Upright Knight of Pentacles encourages you to stay the course. You have the skill and the vision to reach your goal.

Reverse

A Reverse Knight of Pentacles suggests that you have the vision but lack the work ethic. This is a mixed bag. You should be encouraged that mentally you are on the right track. You should also however dedicate a significant amount of time developing a schedule and milestone list. After you lock down your work ethic though, your goals should be completed in no time.

(The above image is a copy of The Page of Pentacles card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

Like all of the Page cards, The Page of Pentacles illustrates the beginning of an idea. Here, the page begins to appreciate the material world. He carefully observes the pentacle to make sure he isn't missing anything. While not a master, the page exhibits the spark of curiosity that begins the path to mastery.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Page of Pentacles card, check out A. E. Waites description

here

.

Point 1 PAGE

The page stands elegantly in a green field and holds up the pentacle in admiration. There is a stillness to the page that is absent in other page cards. He is carefully observing the pentacle to fully understand it. He is like a man who trying to flesh out a new idea before implementing it.

Point 2 PENTACLE

For the first time, the pentacle is of the same color as the sky. This makes it look as if it is blending in the background. It therefore takes the keen page to distinguish the pentacle from the world around him.

Point 3 LANDSCAPE

Like in most of the pentacle cards, the landscape is primarily a green field to signify the element of earth. In the background, you can barely see the tips of a blue mountain range. This is an allusion to

The Fool

card and a reminder of the spiritual journey necessary to distinguish the pentacle from the sky.

Point 4 GREEN TUNIC

The page wears a short green tunic. This matches the green of the landscape and illustrates spiritual growth and a fertility of ideas. In wearing green, the page, like the pentacle, is in harmony with nature.

Point 5 RED HEADSCARF

The page wears a red headscarf. Traditionally in Tarot, red represents passion and heart. The headscarf is also an allusion to the red feather of

The Fool

.

Tarot Reading

Upright

An Upright Page of Pentacles suggests a new appreciation of material things. Perhaps you are out of college and are entering in your first job. Perhaps you are beginning a new diet. An Upright Page of Pentacles encourages you to explore these new experiences to further you on the path towards enlightenment.

Reverse

A Reverse Page of Pentacles suggests that you are hesitant to explore a new idea. Perhaps you are thinking about buying a stock or are brainstorming an exercise plan. A Reverse Page of Pentacles encourages you to utilize the ideas phase of a project. Take the time to research what you want to accomplish before pursuing the idea.

July 26, 2025

(The above image is a copy of The Ten of Pentacles card in a standard Rider-Waite Tarot deck. The 6 symbols pointed out above are explained below.)

Card Description

The Ten of Pentacles marks the end of the numbered card in the Pentacle suit. The card illustrates an old man and his family behind ten pentacles in the shape of the cabalistic Tree of Life. The old man has reached material fulfillment in his life and thus gained enlightenment. Instead of hoarding his possessions, he shares his abundance with his family.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Ten of Pentacles card, check out A. E. Waite's description

here

.

Point 1 PENTACLES

The ten pentacles are arranged to match the 10 stages of the cabalistic Tree of Life. This furthers the connection that tarot has with mystical traditions in theistic religions. A reiteration of the

Five of Pentacles

, the arrangement here shows the harmonious connection material things can have with the divine.

Point 2 OLD MAN

The old man is the woman in the Nine of Pentacles later in years. While the woman in that card celebrated her own work, the man in this card uses his work to celebrate others. Wise in years, the man blesses his children and grandchildren with his abundance.

Point 3 FAMILY OF THREE

Most scholars assume that the family of three are related to the old man, however, it is unclear. Perhaps the family is unaware of the old man's existence and don't realize where their blessings come from.

Point 4 DOGS

Two white dogs lap at the feet of the old man. On the surface, this shows a harmony between man and the animal kingdom, similar to the

Nine of Pentacles

. If we take things a little deeper, the dogs allude to the story of Odysseus, who disguised himself as an old

man and who was only recognized by his dogs.

Point 5 BRIDGE

Many things in the Ten of Pentacles illustrate a harmony of opposites, man and animal, nature and civilization, material and spiritual. This harmony can be represented in the bridge that runs across the top of the card.

Point 6 GRAPES

Grapes traditionally represent a celebration of life and a maturity of spirit. As grapes age into a fine wine, the old man has aged into a fine follower of tarot. The fruit illustrates the road to enlightenment as a sweet journey.

Tarot Reading

Upright

An Upright Ten of Pentacles suggests the fulfillment of material needs. You have worked really hard for your goals and now have more than enough. This card encourages you to share your good fortune with the friends and family in your life. Material security may be nice but it cant beat the emotion security found in close relationships.

Reverse

A Reverse Ten of Pentacles suggests that you are apprehensive about the traditional signs of success: wealth, marriage, kids, etc. There is nothing wrong with this. In fact, a Reverse Ten of Pentacles importantly asks you to find out what you want in life. What are your ends goals? What would satisfy you? Whatever your answer may be, a Reverse Ten of Pentacles encourages you to pursue it and suggests that it will come true.

(The above image is a copy of The Nine of Pentacles card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

The Nine of Pentacles illustrates a young woman observing a falcon in her ripe garden. The card is a celebration of hard work and the self. Unlike the

Seven of Pentacles

, there is no confusion in the woman's face. She fully embraces the harvest of her hard work.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Nine of Pentacles card, check out A. E. Waites description

here

.

Point 1 FIGURE

The figure in the Nine of Pentacles is one of the few figures in the suit that has a healthy relationship with their possessions. It is clear from the figures robe and stature that she has an abundance of material things, however, unlike the

Four of Pentacles

, she is not obsessed with them. The figure recognizes the value in all things, not just the things she possesses.

Point 2 FIGURES ROBE

The figures ornate robe helps illustrate her abundance. Her clothing is in juxtaposition with the clothes from the

Seven of Pentacles

. While that figure wore peasants clothes and was perplexed by his possessions, this figure wears regal clothes and embraces her possessions.

Point 3 FALCON

The falcon represents the things the woman does not own. The hood over his head reflects the lack of ego in the woman. As the falcon is free to fly away, so is the woman for she is not overly obsessed with what she owns.

Point 4 GRAPES

Along with the pentacles, the womans harvest also includes grapes. Grapes traditionally represent a celebration of life and a maturity of spirit. Therefore, the fruit reflects the womans attitude towards her possessions.

Tarot Reading

Upright

An Upright Nine of Pentacles encourages you to celebrate your achievements and to indulge in a little pampering. You have worked really hard and exceeded expectations. Take a load off and enjoy the harvest of your work. An Upright Nine of Pentacles reminds us that rest is an important part of a healthy professional life.

Reverse

A Reverse Nine of Pentacles appears when the thing you need to celebrate is yourself. Remember that you are valuable independent of your work. A Reverse Nine of Pentacles is all about self-care and confidence. Dont worry about what other people think of you. You are incredible regardless.

(The above image is a copy of The Eight of Pentacles card in a standard Rider-Waite Tarot deck. The 3 symbols pointed out above are explained below.)

Card Description

While other cards in the pentacle suit illustrated material possessions given or admired. the Eight of Pentacles illustrates material

possessions crafted by yourself. This is the card of hobbies and art. The card encourages you to pursue your passion project and to respect the craft of others.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

For more information about The Eight of Pentacles card, check out A. E. Waite's description

here

Point 1 FIGURE

The figure in the card is the only figure in the suit that actually works on the pentacle. Like a combination of the architect and monks in the

Three of Pentacles

, the figure in this card symbolizes the craftsman. Rather than being given material things, he creates them and uses them for his benefit.

Point 2 FIGURES RED AND BLUE TUNIC

This figure is wearing a blue and red tunic. Some scholars see this as a combination of water and fire, resulting in the suit element of earth. Other scholars believe the colors represent the passion and zeal that the craftsman has for his art.

Point 3 PENTACLES

The arrangement of the pentacles in the card represents the past, present, and future. The pentacles on the pole represents our past work, displayed to be admired. The pentacle that the figure is working on represents the present, the project that you are currently working on. The pentacle on the ground represents the future, the project that you will work on one day.

Tarot Reading

Upright

An Upright Eight of Pentacles encourages you to pursue a hobby you are passionate about. Maybe you want to write a book or take a painting class. This card supports your interests and illustrates the spiritual maturity that comes with mastering a craft. An Upright Eight of Pentacles suggests the necessity of passion projects along with professional ones.

Reverse

While an Upright Eight of Pentacles suggests you are working on an external hobby, a Reverse Eight of Pentacles suggests that you are working on self-improvement. The card encourages you to take a break from your professional life and to look inward for a peace of mind. Perhaps you should meditate or go to the spa. Do whatever you must in order to reach internal bliss.

(The above image is a copy of The Seven of Pentacles card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

The Seven of Pentacles illustrates long term project fulfillments. In the card, a farmer gazes at his crop of pentacles. His face has an inquisitive expression, suggesting that he is thinking of the future of his farm. Undeterred by short term gains, the Seven of Pentacles asks us to think of the big picture.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

or check out one of our recent arrivals

here

.

For more information about The Seven of Pentacles card, check out A. E. Waites description

here

.

Point 1 FIGURE

The figure in the card leans against his hoe after working hard on his crops. This figure is in repose and illustrates the importance of resting after working. If you can work hard, you can play hard.

Point 2 FIGURES EXPRESSION

The figures expression is one of the more interesting things about him. Instead of being happy at his harvest, he looks perplexed, confused even. This illustrates a necessity to not be stagnant. If you are no longer physically working, that doesnt mean you cant be mentally working as your rest.

Point 3 PENTACLES

The pentacles in this card appear in the form of crops. Rather than the dead stone pentacles of the Three card

, these pentacles contain life and illustrate the growth that possessions can offer to our psyche. While six of the pentacles appear on the left, one pentacle is on the rights. This represents a possible change in the status quo.

Point 4 FIGURES BOOTS

Notable in the card is the figures differing boots. A figure having different shoes on often represents a nuanced understanding that combines seemingly paradoxical ideas. Another figure in Tarot that wears different shoes is the man in the

Seven of Wands

card.

Tarot Reading

Upright

An Upright Seven of Pentacles encourages you to focus on long-term projects with high payoffs. Perhaps you want to start writing a novel or are planning to have a kid. These projects can be daunting however when completed they can be incredibly satisfying. An Upright Seven of Pentacles suggests that the big picture is what you need to be focusing on.

Reverse

A Reverse Seven of Pentacles appears when your attention is scattered and unproductive. Perhaps a lot of tiny projects are taking up your valuable time. Perhaps your workflow has a lot of unnecessary detours. A Reverse Seven of Pentacles encourages you to value your time and to reexamine where you are placing your attention so that you can work efficiently and reap the benefits of your mind.

(The above image is a copy of The Six of Pentacles card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

Much like the

Six of Cups

, the Six of Pentacles gives us a giver and a receiver. During different times in our life, we will see this card differently. If we are currently prosperous, the card asks us to give to those less fortunate. If we are facing financial hardship, the card asks us to be grateful for charity given to us.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Six of Pentacles card, check out A. E. Waites description

here

.

Point 1 RICH MAN

In juxtaposition with the

Four of Pentacles

, the rich man in this card is not stingy with this money. He gives it freely to those less fortunate than him. He might wear a common head dress, but it is a crown of purer gold, invaluable compared to the self-described king in the

Four card

.

Point 2 RICH MANS HAND (BLESSING)

The hand that gives money to the beggars is in the shape of a blessing. This reveals just how much the mans charity means to the two men. It is an action reminiscent to Christs command to sell all of our possessions to the poor. The blessing is seen throughout Tarot, most notably in

The Hierophant

card.

Point 3 TWO BEGGARS

The two beggars are as much a reflection of us as the rich man is. All of us have benefited from the kindness

of others. Whether we are currently in the beggar role or not, the card reminds us to be grateful for the times people have shown love to us.

Point 4 FOUR COINS

The rich man throws four gold coins to the beggars when we view the card. Notably, the coins are suspended in the air between the rich mans hands and the beggars hands. This illustrates the reciprocity of charity. Giving is just as beneficial to the giver as it is to the receiver.

Point 5 BALANCED

In the rich mans other hand, he holds a balance like the one in

The Justice

card. This shows the necessity for the rich to throw away the power that economic hierarchies give them in order to restore the balance of society.

Tarot Reading

Upright

An Upright Six of Pentacles suggest that you are currently in a state of economic prosperity and that you have the opportunity to help others in need. Perhaps you got a raise or made some good investments. In any case, an Upright Six of Pentacles asks that you not be stingy with your luck. Remind yourself of a time when somebody helped you and decide to continue the chain of kindness.

Reverse

A Reverse Six of Pentacles encourages you to give yourself charity in addition to giving others some. It is virtuous to serve others, but you shouldnt let that come at the expense of yourself. In order to truly help people, you must first help yourself. Only then will you be operating at the peak of your abilities.

(The above image is a copy of The Five of Pentacles card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

If the

Four of Pentacles

illustrated a miser, the Five of Pentacles illustrates two beggars. Deprived of material possessions, the beggars are lightened by the pentacles in the window of a church. This reveals the sense of self-worth spiritual possession can give regardless of how much physical possessions your have.

Point 1 LAME AND BLIND PERSONS

In the card, there are two figures, a blind man and a lame man. This is an allusion to an old story were a blind and lame man overcome their disabilities by pooling their resources together. Given that allusion, the card becomes an image of unity during adversity.

Point 2 BELL ON LAME PERSONS NECK

On the lame persons neck, there is a small bell. This bell is known as a plague bell and it signals to other people that this man is sick. While the bell signifies the persons otherness, it can also be viewed in a positive light; the bell declares the persons existence. We can emulate the bell and be proud of what makes us different.

Point 3 SNOW

The card illustrates a snowstorm and further reveals the adversity the two figures face in life. The snow in this card bears a resemblance to the snow in

The Hermit

card, another image of adversity. The white snow contrasts with the black church to make a yin yang symbol, further illustrate the complimentary nature of the two figures.

Point 4 GLASS MOSAIC/PENTACLES

In juxtaposition with the dark pentacles of the

Three card

and the ultra-materialist pentacles of the

Four card

, the pentacles in this card shine light into the darkness from a church. With the window being a divine mosaic, the pentacles form a union of the spiritual and material.

Tarot Reading

Upright

An Upright Five of Pentacles suggest that you are going through a tough time financially. Perhaps you lost your job or are facing substantial medical bills. An Upright Five of Pentacles encourages you to seek support from your friends and family. The card also emphasizes your worth independent from material possessions.

Reverse

A Reverse Five of Pentacles suggests that financial hardships are soon to be over. Perhaps you are going to get a new job or will receive a raise. A Five of Pentacles encourages you during difficult times to keep fighting for a better tomorrow. The card also emphasizes your own worth independent of money and tells you to seek material sustenance as a means rather than an end.

Card Description

While the pentacles suit celebrates the material world, it acknowledges the folly of hyperbolic devotion in the Four of Pentacles. In the card, a self-described king hoards his pentacles from the town behind him. While the man has what he wants, he is all alone. The card suggests that in order to celebrate material possessions, you must have friends and family to celebrate them with.

.

Point 1 FIGURE

The solitary figure in the Four of Pentacles stoops over one of his pentacles while he wears the other three. The figures body language suggests that he his closed off to the rest of the world. In making material things his sole priority, the figure loses everything else.

Point 2 CROWN

The figure wears a crown however, instead of illustrating his authority, the crown illustrates the figures hollowness. He is the king of nobody. A miser that has everything in the world except friends, family, or community. His crown warns against the allure of power.

Point 3 PENTACLES

The pentacles themselves illustrate the mans rampant materialism. This is the only card in which they are worn by a figure. In every other card, they are either held or in the background. This reveals the necessity to have other things in your life besides material possessions.

Point 4 TOWN

The town in the background illustrates the figures loneliness. The figure might wear a crown, but people are his last priority. The figure wants authority for authoritys sake rather than authority for the sake of leading others to a better tomorrow. The card encourages us to pass this figure and run towards the town he has abandoned.

Tarot Reading

Upright

An Upright Four of Pentacles warns that you are putting too much emphasis on money and material possessions. Money is only good as a means to a justifiable end; it should never be an end in of itself. An Upright Four of Pentacles asks you to seriously evaluate your thoughts towards money. If your desire for money is affecting your relationship then it is time to realign your priorities.

Reverse

A Reverse Four of Pentacles suggests that you are currently in the process of evaluating your relationship towards money. Perhaps you have recently felt unsatisfied with life and are wondering way. Shifting focus away from material possessions and towards family and friends can be the remedy you need. A Reverse Four of Pentacles encourages you to continue evaluating your doubt about money.

(The above image is a copy of The Three of Pentacles card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

The Three of Pentacles depicts three figures huddled together in a crypt. Two of the figures provide the architectural plans while one of them implements its. Together, the three figures illustrate the importance of teamwork and collaboration, without which the beauty of the crypt could never have been realized.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

.

Point 1 SCULPTOR

The Sculptor in the card represents our active consciousness. We, like the sculptor, mold our material possessions to conform to our vision. Notably, the sculptor transforms the dark cavern into an ornate catacomb. The sculptor thus encourages us to transform our dull possessions into something beautiful.

Point 2 MONK

The monk represents the divine masculine. He gives the space created by the sculpture a purpose. Together with the nun, they illustrate the harmonious sublime previously seen in the

High Priestess

/

Hierophant

cards.

Point 3 NUN

The nun represents the divine feminine. She gives the space created by the sculptor a purpose and adds needed color to the dreary crypt. Together with the monk, they illustrate the harmonious sublime previously seen in the

High Priestess

/

Hierophant

cards.

Point 4 PENTACLES

The pentacles in the card are carved into the crypt by the sculptor. Rather than being symbols in of themselves, the pentacles merge with the environment and add aesthetic appeal to the card. It is here that they most clearly represent the beauty of the material world.

Point 5 CRYPT

The crypt itself provides an illustrate of the pentacle. The crypt, like all material things, is dead. This doesnt mean however that the crypt is ghostly. It is beautiful. The crypt is a celebration of life in the same way that material things can be used as a celebration of spiritual things.

Tarot Reading

Upright

An Upright Three of Pentacles encourages you to seek out collaboration in order to accomplish your vision. Nobody can go it alone. Whenever you work within a group, the diversity of opinions inherently makes the project better. The sculptor in the card could not have built the crypt by himself. He needed plans, financial support and tools to help him out. An Upright Three of Pentacles suggests that when in doubt, ask someone to help you out.

Reverse

A Reverse Three of Pentacles suggests that something is off in your group dynamic. Perhaps personal opinions are getting in the way of progress. Perhaps there is a mutual lack of respect going on. In any case, a Reverse Three of Pentacles encourages you to work through those roadblocks, talk through any disagreements, so that the project can move forward.

(The above image is a copy of The Two of Pentacles card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

The Two of Pentacles illustrates a man juggling the pentacles while balancing on one foot. Whenever we are faced with a lot of responsibility, we may feel like this man trying to keep the performance going. This card encourages us to seek out the balance that this man has achieved.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Two of Pentacles card, check out A. E. Waite's description

here

.

Point 1 MAN

The Two of Pentacles features a playful man dancing and juggling the two pentacles. The man's carefree nature reveals how we should approach life. Instead of a dreary serious scene depicted in other two cards, this one is lighthearted. We need to approach the ups and downs of life's material possessions with grace and joy.

Point 2 HAT

The man's hat is an homage to

The Fools

red plume. hilariously large, the hat illustrates the need for fun in one's life. It reiterates the man's association with T

he Fool

and enlightenment through playfulness.

Point 3 PENTACLES

The pentacles themselves illustrate the high and low points of our material possessions. There are times in our life where we have it all and other times where we are scraping by. The Two of Pentacles suggest that we carry each of those times equally.

Point 4 GREEN BAND

A green band wraps around the pentacles and forms the infinity sign. This reveals the infinite variations of

experience in between the highest and lowest points of our lives. The infinity symbol is also a call back to major tarot cards like

The Magician

and

The Strength

.

Point 5 SHIPS

In the background of a turbulent sea, there are two ships that bob up and down. This is meant to be a reflection of the high and low pentacles. Something to note is that despite the turbulent sea, the ships are sailing successfully, implying that we can survive any number of hardships.

Tarot Reading

Upright

An Upright Two of Pentacles suggests that you are having to manage various responsibilities. Perhaps you have a new job or are a new parent. You are trying to determine what your priorities are. An Upright Two of Pentacles encourages you to be mindful of the decisions you make and to take confidence in your choice.

Reverse

A Reverse Two of Pentacles warns you that perhaps you lack a balance in your life. Maybe you are working too hard and forgetting your friends and family. Maybe you are making risky financial decisions without a backup plan. A Reverse Two of Pentacles encourages you to take a moment and to rearrange your priorities to the best of your situation.

Card Description

The Ace of Pentacles magically appears to the reader in a cloud of smoke, ready to be taken any anyone who wants it. If taken, the reader will walk through the garden gate and begin their path to enlightenment on the blue mountain road. While the other minor arcana suits focused on different aspects of the psyche, The pentacle suit, focuses on the material world, our bodies, our finances, our needs.

.

For more information about The Ace of Pentacles card, check out A. E. Waites description

here

.

Point 1 HAND

Out of a cloud of smoke, a hand offers the pentacle to the reader. This reveals that that the pentacle suit, like the others, is a gift waiting to be taken by you. Like other aces, the Ace of Pentacles is pure potential energy.

Point 2 PENTACLE

The pentacle is the earth suit and represents our physical possessions, whether that be financial or our own bodies. Illustrating the pentagram, the pentacle has its roots in pagan magic. The 5-pointed star is the quintessence of the reader.

Point 3 LANDSCAPE

The landscape below the pentacle is fertile farmland, further cementing the suit as the earth elemental of the minor arcana. This landscape is a place of growth and abundance. Similarly, the pentacle is a celebration of what we have reaped.

Point 4 GARDEN GATE

In the background there is a garden gate. This symbolizes the entrance to new realms of being. As the reader begins their journey on the road to enlightenment through the minor arcana, they too pass through a spiritual gate.

Point 5 MOUNTAINS THROUGH THE GATE

Through the gate there rises a range of blue mountains. This is a direct callback to

The Fool

card. They are a representation of the spiritual journey the reader goes on during their Tarot read. They reiterate that through the garden gate is the path to enlightenment.

Tarot Reading

Upright

An Upright Ace of Pentacles illustrate the pure potential for material gains. These material gains could be financial wealth or bodily health. An Upright Ace of Pentacles encourages you to pursue your goals because the material world will support you. Perhaps you want to train for a marathon or invest in a start-up business. An Ace of Pentacles is a green light for those ambitions.

Reverse

A Reverse Ace of Pentacles suggest that there is an anxiety about material things. Perhaps you are facing financial insecurity or experiencing health problems. A Reverse Ace of Pentacles encourages you to tackle those obstacles so that you can manifest the pure potential energy that comes with the Ace card.

Tarot Blog

July 23, 2025

James Daley

(The above image is a copy of The King of Swords card in a standard Rider-Waite Tarot deck. The 6 symbols pointed out above are explained below.)

Card Description

The King of Swords sits confidently on his throne and stares directly at the reader. This illustrates his master intellect and ability to get things done. This shouldn't be seen as an example of toxic masculinity however as his

High Priestess

robe and sickled throne suggest a convergence of masculine and feminine attributes.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck [here](#)

or check out one of our recent arrivals [here](#)

For more information about The King of Swords card, check out A. E. Waite's description [here](#)

Point 1 KING

The King sits on his throne and stares directly at the reader. This illustrates the King's assuredness. Armed with his sword, he tackles his problems head on. This level of authority is indicative of all king cards.

Point 2 SWORD

The King holds his sword in his right hand and points it straight up. This illustrates his desire for truth and the moral backbone behind his intelligence. Like the

Queen

, the King differs from the

Knight

and

Page

in that he requires no performance or symbolism of his authority. Like the

Queen

, his authority is inherent.

Point 3 BUTTERFLIES

The King's throne has a butterfly design near the top of it. Like the

Queens

crown, the butterflies here illustrate the dynamism of the sword suit through their metamorphosis.

Point 4 TWO SICKLE MOONS

Above the butterflies, there are two sickles carved in the throne. On a fundamental level, they represent the harvest. On a deeper level, they illustrate the moon and the matriarchy. This runs counter to the idea of toxic masculinity and reveals the necessity for femininity to co-exist with masculinity, and vice versa.

Point 5 BLUE ROBE

The King wears a light blue robe. The color not only evokes the element of air, it also traditionally symbolizes spiritual maturity in Tarot. Some scholars have pointed to a resemblance of

The High Priestess

robe, further iterating the theme point out in the two sickles.

Point 6 TREES

The trees in the background illustrate the fertility found in spiritual maturity. While other court cards in the minor arcana are in wastelands, the sword court cards are in an open green field, suggesting the potential for great things.

Tarot Reading

Upright

An Upright King of Swords suggests a clarity in vision. Perhaps you lack confidence in your area of expertise. An Upright King of Swords says that this is simply imposture syndrome and that you truly are qualified in your job. Proceed in your performance with confidence and resolve in order to manifest your vision in the world.

Reverse

While an Upright King of Swords is concerned with external mastery, a Reverse King of Swords is concerned with internal mastery. Perhaps you are not directing a project, but you might have a great idea that could significantly help in a project. Take confidence in your intellect and do what you can to help any situation you find yourself in.

James Daley

(The above image is a copy of The Queen of Swords card in a standard Rider-Waite Tarot deck. The 6 symbols pointed out above are explained below.)

Card Description

The Queen of Swords uses her master intelligence to help those around her. Instead of using her sword to cut others down, she use it to defend other. The queen rules unbiasedly, and commands the element of air to breath life into the world she lives in.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Queen of Swords card, check out A. E. Waites description

here

.

Point 1 QUEEN

Unlike the charging

Knight of Swords

, the Queen is able to enact her vision while stationary on her throne. This position speaks volumes on her authority as she manages other people to do the work for her. Calm and collected, the Queen reminds us not to be brash but to be calculated in our intellectual pursuits.

Point 2 CROWN

The crown that the Queen wear is a symbol of her authority on earth. Made with a butterfly design, the crown also illustrates the lightness of her mind. She is not bogged down with details or chained to some previous trauma that is causing arrested development. Her mind is free and open to new ideas.

Point 3 BUTTERFLIES

Along with her crown, the Queens throne has a butterfly design on it. Reiterating the qualities of the crown, the butterflies on the throne illustrate the dynamism of the sword suit through their metamorphosis.

Point 4 CHILDS HEAD

Along with the butterfly, there is a childs head carved in the stone throne. This could represent the childlike innocents and sense of wonder necessary to wield your intelligence masterfully. A childs head could also illustrate the subconscious part of our intelligence.

Point 5 TWO SICKLES

In between the child's head and the butterflies, there are two sickles carved in the throne. On a fundamental level, they represent the harvest. On a deeper level, they illustrate the moon and the matriarchy. Some scholars point to the sickles' resemblance to

The High Priestess

's crown as a reference to the Queen's divine authority.

Point 6 SWORD

The Queen holds her sword in her right hand and points it straight up. This illustrates her desire for truth and the moral backbone behind her intelligence. While the previous court swords extended beyond the limits of the card, the Queen requires no performance of her authority.

Tarot Reading

Upright

An Upright Queen of Swords suggests that you are wielding the potential energy of the

Page

and the kinetic energy of the

Knight

. You exercise your intellectual mastery through listening and mediating. An Upright Queen of Swords encourages you to trust your intuition in creative projects. You gain valuable insights through your emotions and feelings.

Reverse

A reverse Queen of Swords suggests that your mental capacity is being clouded by the emotional needs of others and that you need to direct your focus inward. It is admirable to help others, but in order to do so, you must first help yourself. Take time out of your week to meditate or relax so that when you do help others you are not doing so at the overwhelming expense of your mental health.

(The above image is a copy of The Knight of Swords card in a standard Rider-Waite Tarot deck. The 6 symbols pointed out above are explained below.)

Card Description

The Knight of Swords is the most energetic card in all of tarot. The knight and horse leap into the card, charging against the wind to some unknown destination. This card encourages us to take charge and to determine our own future with the same level of passion.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

[here](#)

or check out one of our recent arrivals

[here](#)

.

For more information about The Knight of Swords card, check out A. E. Waites description

[here](#)

.

Point 1 KNIGHT

As always, the knight here is a symbol for dynamic action. Unlike the other knights in the minor arcana, this knight takes that symbolism literally and is charging forward like a gust of wind. The knight in the swords suit is the most energetic and thus encourages you to be the most energetic you have ever been.

Point 2 ARMOR

The knight in the swords suit is one of the most heavily armored knights in the minor arcana. While the knight is rushing into battle, he does so deeply prepared. This runs counter to the idea that you can only be energetic haphazardly.

Point 3 SWORD

Like the sword in the

Page

card, the sword here extends beyond the limits of the frame, suggest a larger than life quality in the weapon. Unlike the pages sword, however, the knights is drawn for battle.

Point 4 HORSE

Like the knight, the horse is rushing into battle with wind in its hair. The great horse not only adds to the powerful energy in the card, its white color suggests that the knights battle charge is pure of spirit.

Point 5 BUTTERFLIES

In juxtaposition with the masculine, dynamic energy, the horses reins have a butterfly design on them. While

this design seems in conflict with the knight, it helps illustrate the airiness of the card. Additionally, the butterflies reiterate the cards dynamism through their metamorphosis.

Point 6 TREES

The entire environment in the card matches the energy of the knight. For instance, the trees in the background bend to the force of the wind. The direction of the trees reveal that the knight is charging against the wind.

Tarot Reading

Upright

An Upright Knight of Swords suggests a determination to see your plans come to fruition. While the Page

was stuck in the idea stage of creativity, the Knight is making that idea happen. This card encourages you to be assertive in your vision and to do whatever it takes to manifests your understanding.

Reverse

A Reverse Knight of Swords appears when you have all of the energy in the world, but you dont know how to focus it into something productive. This card suggests you are making brash decisions without considering the consequences. A Reverse Knight of Swords encourages you to meditate on what you want so that you can channel your energy successfully.

(The above image is a copy of The Page of Swords card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

The Page of Swords uses the swords as a weapon for the exploration of thought. When this card enters the deck, it is an encouragement to seek out new experiences and to take risks. With the page's flowing hair and with the birds in the background, it also lays the groundwork for the other face cards to illustrate the element of air.

.

Point 1 PAGE

The pages posture is one of the many paradoxes found in Tarot. His body is facing the right of the card while his head is facing the left of the card. The page is thus in the past and future, mimicking the figure in the Seven of Swords

without the underlying thievery. The page also sets an example for the other face cards, for, despite his small frame, he is able to wield the sword like a master.

Point 2 FEET

Similar to his posture, the pages feet are a paradox. One foot is planted firmly on the ground while the other one is free to move around. This reveals the pages agility and grace. He can be on the offensive with his sword as well as on the defensive with evasive maneuvers.

Point 3 HAIR

The pages hair waves gloriously in the wind. This illustrates the element of wind found throughout the swords suit. It also reiterates the pages agility previously seen through his feet. The page is as light as air and as powerful as wind.

Point 4 SWORD

As previously mentioned, despite the pages small frame, he wields the sword like a master. This is more impressive when one considers the size difference between the page and the sword. Extending beyond the

limits of the card, the sword is larger than life.

Tarot Reading

Upright

An Upright Page of Swords bursts into your tarot reading with energy and potential. It suggests you are exploring new ideas or ways of thinking. An Upright Page of Swords encourages you to try new things. Get out of your comfort zone. Take risks. It asks you to take on life with enthusiasm and curiosity.

Reverse

A Reverse Page of Swords appears when you are hesitant to jump into the arena and speak your mind. Perhaps you are timid in front of an audience or are having trouble articulating your opinions. A Reverse Page of Swords encourages you to meditate on your thoughts and to have confidence in your ability to communicate.

Card Description

The Ten of Swords marks the end of the numbered card in the swords suit. Naturally, therefore, the card is about endings. It depicts a dead man in a battle field. Rather than harping on the lost, however, the card encourages us to focus on the peace, glory, and rest that comes with endings.

Point 1 FIGURE

One of the more macabre cards, the Ten of Swords depicts a man face down with ten swords in his back. In a way, this card is a reflection of the

Four of Swords

, depicting the knight before he is buried. An optimistic interpretation of the figure is that he gave his all for his cause and died in the glory of battle.

Point 2 RED CLOTH

A red cloth covers a part of the figures body. Like in most tarot cards, the color red symbolizes passion and zeal. The cloth is a representation of the figures strength and courage in the battle he has fought.

Point 3 FIGURES HAND

Like in

The Hierophant

and other cards, the figure is making the hand gesture for divine blessing. This further iterates the glory underneath the macabre scene. While regrettable, the figure died on his own terms.

Point 4 DARKEN SKY

The darken sky is a reflection of the darken room in the

Nine of Swords

. It is the dark night of the soul played out in reality. The sky illustrates the atmosphere of the macabre found in the card.

Point 5 YELLOW SKY

Juxtaposing the darken sky is the rising morning underneath it. The yellow sky represents the hoped-for enlightenment depicted in the

Nine of Swords

. The morning further iterates the hidden glory underneath the figures death.

Point 6 STILL WATERS

Beyond the figures body is a vast ocean. Unlike most oceans, the water is still without any hint of waves. The stillness of the water directly relates to the stillness of the body. Indirectly though, the water hints at a level of peace that the figure must be feeling now that he has died.

Tarot Reading

Upright

An Upright Ten of Swords suggests the end of something. Endings are often felt with regret however, like in The Death

card, tarot treats endings with a little more optimism. A relationship might have ended, but a new one could be around the corner. A ill family member might have died, but they are no longer in pain. An Upright Ten of Swords asks you to be appreciative of the thing that has ended and to look forward to new experiences without harping on your old ones.

Reverse

A Reverse Ten of Swords suggest that you are in denial about an inevitable ending. Perhaps you dont want to say goodbye or are scared about the unknown. A Reverse Ten of Swords encourages you to let go. Denial only makes things worst when they eventually end. Make your peace about the situation and appreciate the good memories you have.

Card Description

The Nine of Swords depicts a figure waking up from a bad dream. Above him hovers the nine swords. The card is an allusion to the dark night of the soul where a person faces an existential crisis. While the card contains pain, it also contains the hope that this dark night will turn into a bright morning of enlightenment.

or check out one of our recent arrivals

[here](#)

.

For more information about The Nine of Swords card, check out A. E. Waite's description

[here](#)

.

Point 1 FIGURE

The figure in the card is seen in a state of shock and epiphany. They bury their face in their hands to reveal their disbelief. This posture illustrates the painful aspect of enlightenment, sometimes referred to as the dark night of the soul.

Point 2 SWORDS

The nine swords float above the figure, as if they are a representation of the figure's epiphany. The swords are notably caught in the light, creating a juxtaposition between them and the black background. The arrangement of the swords conveys a sense of pattern and design to the figure's epiphany.

Point 3 BLACK BACKGROUND

The black background further illustrates the concept of the dark night of the soul. It tells of the suddenness and unexpected nature of spiritual epiphanies. Through the black background we are able to see the void within the figure's consciousness.

Point 4 CARVING OF PEOPLE FIGHTING

Along the bedframe, there is carved two people fighting each other. This carving illustrates the conflicting voices within the figure's psyche. Such a disharmony naturally comes from states of spiritual epiphanies. On one hand, you have your old beliefs and on the other you have your new encounter.

Point 5 ROSES ON QUILT

If the carving represents the figure's disharmony, the roses on the quilt represent the figure's harmony. Like a

rose, there is an undeniable beauty in spiritual revelations. They can shock us out of our sleep and also comfort us back to rest.

Point 6 ZODIAC SYMBOLS ON QUILT

Along with roses, there are various zodiac symbols on the quilt. Like the arrangement of the swords, the zodiac symbols point to a divine plan or design. Spiritual epiphanies naturally come from an endorsement of the cosmos.

Tarot Reading

Upright

An Upright Nine of Swords suggests worry, anxiety and restless sleep. Perhaps you are being overwhelmed by a feeling or are haunted by a past trauma. An Upright Nine of Swords encourages you to face those trouble head on. Constantly harping on them will only cause corrosion: holding your breath causes you to lose it. Meditate on what is keeping you up at night, talk about it with friends or a therapist. Use the dark night to gain enlightenment by the morning.

Reverse

While an Upright Nine of Swords suggests external trauma, a Reverse Nine of Swords suggests internal trauma. Perhaps you are hard on yourself or you lack any sense of self-worth. A Reverse Nine of Swords encourages you to connect with yourself on a deeper level in order to appreciate who you are.

(The above image is a copy of The Eight of Swords card in a standard Rider-Waite Tarot deck. The 6 symbols pointed out above are explained below.)

Card Description

The Eight of Swords depicts a bounded figure surrounded by a cage of swords. This card appears whenever we feel trapped by outside forces. While the figure appears to be in a hopeless situation, the card allows for the possibility that they could escape their bonds and be free.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Eight of Swords card, check out A. E. Waite's description

here

.

Point 1 BOUNDS

The Eight of Swords depicts a woman bound from head to toe. These bounds suggest a limit of thought. They are a manifestation of her caged mind. While it appears that she is trapped, the bounds look easily escapable. This implies that the woman's mental limits can be overcome through self-realization.

Point 2 BLINDFOLD

Along with the bounds, the woman is blindfolded. As the

Seven of Swords

was a parody of the

Five of Swords

, the Eight of Swords is a parody of the

Two of Swords

. While in the

Two of Swords

, the blindfold seemed an extension of the intellect, here, the blindfold limits the intellect. In order for the woman to reach spiritual maturity, she must first remove the blind so that she can tie it on her own.

Point 3 SWORDS

The eight swords around the woman reiterate the parody of the blindfold. The swords should be tools used by the woman; they should be extensions of her. Instead, they trap her and limit her mobility. The swords

emphasize the need to reclaim oneself from self-delusion.

Point 4 FIGURES CLOTHING

The woman's red clothing matches the paradox found in the clothing of the man in the Seven of Swords. The red illustrates the woman's passion and zeal; however, the surrounding environment suggests that her emotions are consuming her. The card thus calls for a balance.

Point 5 WATER AT FIGURES FEET

There is a pool of water at the feet of the woman. Like most of the water symbolism found in the Swords suit, the water here illustrates the woman's connection to her subconscious. While her body is trapped, the woman still has the power of her mind; it is up to her to use it to set herself free.

Point 6 CASTLE

Behind the woman is a large castle. The security of the castle is juxtaposed with the insecurity of the sword cage. The castle is built to protect a person while the swords and binds are built to limit the woman. The castle furthers the interpretation that the woman needs to regain control of her surroundings and to use them for her advantage rather than her disadvantage.

Tarot Reading

Upright

An Upright Eight of Swords suggests that you are feeling trapped and powerless. Perhaps you are in a dire financial situation or are stuck in an abusive relationship with a friend or romantic partner. While these situations seem helpless, it is important to realize that you always have the power of your intellect. Like the woman in the card, you have the agency to free yourself from the terrible situation.

Reverse

A Reverse Eight of Swords suggests that you are entrapping yourself through self-delusions or limiting ideologies. Perhaps your stubbornness on an issue is preventing you from maturing. Perhaps a previous trauma has remained unprocessed and it is causing you to have arrested development. In situations like these, it is important to take a step back, meditate on the problem, and talk about it with a licensed therapist in order to free yourself from this oppressive mentality.

(The above image is a copy of The Seven of Swords card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

The Seven of Swords appears when you are hiding from

something. The card depicts a man sneaking away from a military camp, while stealing five swords. This could be interpreted as either we are hiding our actions from others or are hiding our actions from ourselves and are in a state of denial.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Seven of Swords card, check out A. E. Waites description

here

.

Point 1 FIGURE

The figure is a paradox. On one hand, he is walking forward; on the other hand, he is looking backwards. This inconsistency suggest that the man is sneaking away from where he was. His sly smile reinforces this interpretation.

Point 2 FEET

The man is walking on his tippy toes. This adds to the interpretation that he is sneaking away from somewhere. The red of his shoes illustrates the mans passion while suggesting that his emotions have outweighed his intellect.

Point 3 TENTS

The tents in the background convey civilization. Coupled with what the man is holding, it becomes clear that the man is stealing weapons from a military camp. While his motive are unclear, the nature of his actions leave little for a positive interpretation.

Point 4 FIVE SWORDS IN HAND

The five swords in his hand are a parody of the

Five of Swords

. While in that card there is at least the possibility that the man won the swords in a justified fight, in this card it appears obvious that the mans intent is scandalous.

Point 5 TWO SWORDS LEFT BEHIND

The two swords that the figure has left behind is again a parody of the

Five of Swords

. Unlike in that card, these two swords left behind could be used as evidence of the mans misdeeds. They invoke carelessness and guilt.

Tarot Reading

Upright

An Upright Seven of Swords suggests that you are hiding something and trying to get away with it. Perhaps you are cutting corners to get things done. While the ends might be noble, the means have to be just as noble. Practice integrity so that your future is built on a firm foundation. Alternately, an Upright Seven of Swords could suggest that somebody is hiding something from you. Make sure that you have friends that you can trust.

Reverse

A Reverse Seven of Swords suggests that you are deceiving yourself. In the age of social media, self-deception is as popular as ever. Instead of trusting in what your online profile says about you, trust in what your friends and family say about. Similarly, you might be experiencing imposture syndrome. In that case, trust in your intuition and rely on your support system.

Card Description

The Six of Swords illustrates our journey in-between

environments. Perhaps we are transitioning to a new job or a new environment. The Six of Swords captures the ambiguity of the future without harping on any regret.

Point 1 FERRYMAN

The ferryman is an illustration of the swords suit in that he exercises his conscious control over the subconscious waters. He is a mediator between the intellect and the real world, much like the sword is. In relation to the woman on board, he also illustrates masculine energy.

Point 2 WOMAN

A passenger on the boat, the woman in the card illustrates us as we sail through life. We only see her back, so it is difficult to understand the woman's mood in her journey. In relation to the ferryman, she also illustrates feminine energy.

Point 3 CHILD

The child has no authority in this card; he is just along for the ride. He therefore represents our indecisions and unconscious passivity. Together, with the ferryman and woman, the child completes this portrait of a family.

Point 4 SWORDS

The six swords in the card are stabbed upright at the front of the boat. Together they block the view of the ferryman and add unnecessary weight to the boat. They therefore represent the emotion baggage that we sometimes carry around without, consciously or unconsciously.

Point 5 RIPPLED WATER TO THE RIGHT

The rippled water to the right of the boat symbolizes the fluidity of our subconscious. Paired with the still

water to the left of the boat, the ocean that the boat sails in illustrate the paradox of our being.

Point 6 STILL WATER TO THE LEFT

The still water to the left of the boat symbolizes the constant of our will or consciousness. Paired with the rippled water to the right of the boat, the ocean that the boat sails in illustrate the paradox of our being.

Tarot Reading

Upright

An Upright Six of Swords is indicative of all Tarot cards. It encourages your journey into the unknown. Perhaps you are moving cities or are single again. An Upright Six of Swords asks that you embrace this transition while at the same time suggesting that you reconcile with the emotional baggage that holds you back.

Reverse

A Reverse Six of Swords suggests that you are currently in an agitating environment and are resisting healthy change. In this case, the swords are weighing you down and preventing you from evolving as a human. A Reverse Six of Swords thus encourages you to deal with any emotional arrested development so that you can transition into a better life.

Card Description

The Five of Swords illustrates the aftermath of a disagreement. The card questions the validity of an argument won if the means to that victory involved pain. The Five of Swords asks us to take a look at the process we use to reach our objectives. In other words: ends do not justify means.

Point 1 LARGEST MAN

A large man is depicted in the foreground, picking up fallen swords. It is unclear his relation to the two other figures in the card. Perhaps they all had a fight and the large man won. Perhaps he is thinking of attacking them while their backs are turned. Perhaps he is looking at the other two people and is thinking about his younger self. Interpretations from Tarot scholars vary.

Point 2 TWO OTHER FIGURES

Two figures are seen walking away from the man with the swords. Perhaps they are walking away in defeat. Perhaps they are unaware of the man with the swords. In any case, these figures' depiction adds a sense of melancholy and loss to the card.

Point 3 TWO SWORDS ON THE GROUND

The two swords on the ground are reminiscent of the three fallen cups in the

Five of Cups

. They are the tools we haven't used or forgot about. Perhaps they are the swords of the two figures walking away. In that case, they can represent defeat or our shortcomings.

Point 4 THREE SWORDS IN THE MAN'S ARMS

Likewise, the three swords in the man's arms are reminiscent of the two standing cups in the

Five of Cups

. They can represent resourcefulness and being prepared. On the flip side, they could also illustrate hoarding

and being a miser about resources.

Point 5 WATER

The water in the Five of Swords is a reiteration of the water found in the Two of Swords

. It represents the subconscious coupled with the intelligence. Perhaps this indicates that the man with the swords is out of touch with his subconscious.

Tarot Reading

Upright

An Upright Five of Swords is about conflict and illustrates the loss that comes from fighting. Whether you won or lost a conflict, the battle can take its toll. An Upright Five of Swords encourages you to pick your battles wisely. Not everything is worth fighting for. Try your best to see the situation from your opponents perspective before you escalate things into an argument.

Reverse

A Reverse Five of Swords suggests that you have been fighting an uphill battle for a while now without any progress. There is no shame in admitting defeat. In fact, it is a necessary step to maturity. A Reverse Five of Swords encourages you to appreciate your effort and to move forward in a positive direction.

(The above image is a copy of The Four of Swords card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

While the

Three of Swords

was about trauma, the Four of Swords is about the repose after the trauma. Perhaps you have gone through a terrible break up or just quit your job. The Four of Swords illustrates that ambiguous purgatory between decisions. The card encourages you to rest, meditate in order to make an informed decision on how to move forward.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Four of Swords card, check out A. E. Waite's description

here

.

Point 1 PRONE FIGURE

The main figure in the Four of Swords is a prone knight preserved in a coffin. The prone position offers a few interpretations. On one hand, the figure is preserved as a valiant knight, their hands in a position of prayer and meditation. On the other hand, the figure is paralyzed and stagnant in their spiritual growth. It is up to the reader to interpret the figure's position positively or negatively.

Point 2 SWORDS

Three of the swords in the card hang above the prone knight, pointing at his torso, while one of the swords is laid in the coffin. The three swords illustrate the hardships faced by the knight while he was alive. The lone sword illustrates the knight's singular focus and effort to overcome the hardships.

Point 3 MOSAIC

Above the knight, on the wall of the church, there is a mosaic window. The mosaic represents many of the themes found throughout tarot. The picture is separated, yet united, fragmented yet beautiful. Through the lens of the mosaic, much like the lens of tarot, people are able to see the wonders of life.

Point 4 WORD PAX IN THE MOSAIC

In the top left corner, the Latin word for peace, pax, is written in the mosaic. This signifies that the knight's

death is not a tragic, mournful event. The knight is at peace. He fought the good fight and is now at rest.

Tarot Reading

Upright

An Upright Four of Swords is an invitation to rest and recharge. Perhaps you have undergone a major event or even trauma. It is important that you take time to process that information before you proceed. In our fast-paced world, we are told to go, go, go, go. The Four of Swords reminds us of the virtue of staying still and reflecting.

Reverse

While an Upright Four of Swords suggests that you have just gone through something, a Reverse Four of Swords suggests that you are currently going through something. Perhaps you are overworked or manic about something. A Reverse Four of Swords encourages you to take a step back and retreat to your inner sanctuary. You must rest in order to fulfill the thing you are working so hard at.

Card Description

While the

Two of Swords

illustrated what swords can do for you, the Three of Swords illustrates what swords can do against you. By their very nature, swords can hurt us and cause trauma. The Three of Swords suggests working through that trauma in order to come out stronger.

Point 1 HEART

Like the

Eight of Wands

, the Three of Swords is one of those rare cards that doesn't depict a human figure in it. Instead, we get a close up view of the most important part inside a human, the heart. The heart is the center of our emotions. Without it, there is no Tarot. Its gigantic size in the card illustrates the power and authority of the organ. Its depiction also indicates the necessary combination of emotional strength and intellectual strength.

Point 2 SWORDS

The three swords depicted in the card, pierce the heart without making it bleed. This can be interpreted in a few ways. Positively, it could be interpreted as the union between the intellect and emotions, as described above. Negatively, it could be interpreted as the pain one feels when others use their intellect against us. In this interpretation, there is however hope in that the heart remains intact even after being stabbed. Whatever pain we may feel, it cannot break us.

Point 3 RAIN

Behind the stabbed heart, there are storm clouds and streaks of rain. The melancholy atmosphere reflects the pain of a heart stabbed. Some scholars have also noted that the streaks of rain appear similar to streaks

of a mirror, make the card a reflection of ourselves.

Tarot Reading

Upright

An Upright Three of Swords indicates that you have experienced a deep hurt recently. Someone or something has pierced your heart and you are grieving. In times like these it is important to express your emotions and to let it out. The pain you are feeling is valid and real. Despite this, have confidence that it will pass and that you will become stronger afterwards.

Reverse

A Reverse Three of Swords suggests that you are the one stabbing your own heart. Perhaps you are plagued with a hypercritical nature and self-worth issues. While self-criticism can be valuable in become conscious of your surroundings, too much of it can lead to alienation and arrested development. A Reverse Three of Swords encourages you to take care of yourself. Spend some time every day to recite affirmation. In order to love other people, you must first love yourself.

Card Description

The Two of Swords depicts a blindfolded figure wielding two swords. The card illustrates trust in one's own intellect and a balance in one's

psyche. The Two of Swords appears whenever you are facing a difficult decision in your life.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

.

Point 1 FIGURE

The figure in the Two of Swords sits with their arms crossed and their legs squarely apart. This posture suggests a strong defensive stance with a strong flow of energy throughout the body. With swords at the ready, the figure is far from helpless despite the blindfold.

Point 2 BLINDFOLD

This figure is notably blindfolded. This reveals that the power of the mind is not limited to sight and sense perception. The blindfold also reiterates the traditional blinded figure of Lady Justice; the figure is unbiased in their judgement.

Point 3 SWORDS

The swords that the figure carries importantly extend beyond the limits of the card. This illustrates just how authoritative the swords are. It also reiterates the responsibility required of the sword wielder

Point 4 WHITE SPOT ON HEAD

Above the figure's blindfold, there is a white spot near the center of the figure's forehead. This spot symbolizes the spiritual third eye that the figure sees from. Devoid of physical sight, the figure relies solely on their intelligence.

Point 5 WATERS

Behind the figure is a vast ocean. Like water found in the cups suit, the water here represents the subconscious. Devoid of sight, the figure is having to rely on an intellect rooted in their psyche.

Point 6 MOON

The sickle moon in the sky, like the one found in

The Moon

card, illustrates the subconscious. The night sky is reflective of the figures lack of sight. The moon also compliments the ocean in painting a picture of the figures psyche.

Tarot Reading

Upright

An Upright Two of Swords suggests that you are facing a difficult decision between two choices. Perhaps you are deciding on a job or where to live. In times like this, it is important to trust your intuition and intellect. Blind yourself to any distracting noise and focus on what you truly want.

Reverse

A Reverse Two of Swords suggests an impasse or stalemate in your decision-making process. Perhaps you do not have enough relevant information to help you make a decision. Perhaps the involved parties are not seeing eye to eye on a certain issue. When these problems arise, it is important to seek out all of the necessary information and to ultimately trust your gut when things dont seem clear.

Card Description

The Ace of Swords is pure intellect incarnate. Beginning the swords suit, this card establishes many of the themes that will continue as the reader progress through the suit. Point 1 HAND

Like all aces, the Ace of Swords illustrates a hand materializing from a cloud and offering the suit to the reader. This is a reminder that the suit is a gift to be rejected or accepted. In accepting the suit, the reader begins their participation with the divine.

Point 2 SWORD

The sword combines the will of the wand suit and the mind of the cups suit. It can thus be conceived as the intellect incarnate. Double-sided and sharp, the sword illustrates the effectiveness and complexity of our psyche.

Point 3 CROWN

Above the sword, there hangs a crown. This reveals the regality and authority of the sword. The four points of the crown, combined with the point of the sword, makes five, also revealing the quintessence of the suit.

Point 4 PLANTS FROM THE CROWN

Two plants spring out from the crown. This could be interpreted in a few ways. It could reveal that swords exercise their control onto nature. The plants could also be seen as laurels, celebrating the regality of the sword.

Point 5 SIX DROPS OF GOLD

Above the hilt of the sword, there floats six drops of gold. Like the plants, this too could be interpreted in a

few ways. On a basic level, they could illustrate the divine spark incapsulated in the sword. Some scholars view the number six as significant and suggest it is referring to the sixth card in the major arcana,

The Lovers

.

Point 6 MOUNTAINS

Behind the elegant sword are still the jagged mountains. This reveals that, even after gaining the powerful weapon of the sword, the road ahead will still be rough. In this way, the Ace of Swords reflects

The Fool

card.

Tarot Reading

Upright

Like all aces, an Upright Ace of Swords represents pure potential. This potential is all in the intellect. An Upright Ace of Swords thus suggests that you open up your mind to new possibilities and worldviews. Perhaps you are considering a new project. This card encourages you to start that project and to see how far your mental capabilities can go.

Reverse

A Reverse Ace of Swords suggests that a great idea for a project is trying to break thought but some mental block is preventing that from happening. While it can be encouraging to sense something great, it can be frustrating to not see it manifest easily. If this card pops up, take a step back and meditate on where you want to direct your mental faculties.

(The above image is a copy of The King of Cups card in a standard Rider-Waite Tarot deck. The 6 symbols pointed out above are explained below.)

Card Description

The King of Cups is at the height of power in the cups suit. Despite this, he appears calm, unanxious about losing that power. Instead of being ruthless, the King rules in compassion, listening to those around him. Far from the toxic masculinity that plagues most rulers, the King of Cups is in touch with his emotions and uses them to be empathetic to those he is in charge of.

[here](#)

or check out one of our recent arrivals

[here](#)

.

For more information about The King of Cups card, check out A. E. Waite's description

[here](#)

.

Point 1 KING

Like the

Queen of Cups

, the king is relaxed and levelheaded. Instead of ruling with an iron fist, The King of Cups rules through compassion and dialogue. He lacks any anxiety over his position of power, expressing a contentment for his life.

Point 2 THRONE

The throne carved in stone miraculously floats on top of the ocean. This reveals the king's lighthearted nature and grace. The gray color of the throne in turn illustrates his unbiased judgement. Free from the weight of guilt, the king's virtue floats to the surface.

Point 3 FISH ON THE LEFT

The fish popping out of the left side of the card is reminiscent of the fish in the

Page

cup. It is that surprise spark of creativity. As the spirit animal of the cups suit, the fish also reiterates the need for us to swim in our emotional subconscious.

Point 4 SHIP

To the right of the card, a ship sails across the sea. This symbolizes the need to keep exploring.

Enlightenment is not a static place; it is a movement towards the divine. Opposite to the fish, the ship represents our creativity manifested.

Point 5 CUP

Far from the ornate cup of the

Queen

, the cup that the King holds is a reiteration of the previous cups found in the suit. It is a reminder to stay humble, especially when you are in a position of power. The cup you drink from is the same as the

Pages

.

Point 6 SCEPTER

The scepter is the source of the kings royal authority. It is shorter than most scepters, suggesting the need to limit ones power and to avoid ambition.

Tarot Reading

Upright

An Upright King of Cups suggests complete control in situations. When problems arise in your life, trust your intuition. Use a combination of logic and creativity to surpass any obstacles that block your path. In exercising your mastery, you lift other people up, allowing them to float in the water with you.

Reverse

While the Upright King of Cups focuses on your ability to command external project, the Reverse King of Cups focuses on your ability to command internal projects. In understanding your own emotions, you better understand the emotions of others. Repress no experience. Strive to make your inner life harmonious with your outer life.

(The above image is a copy of The Queen of Cups card in a standard Rider-Waite Tarot deck. The 8 symbols pointed out above are explained below.)

Card Description

The Queen of Cups rules the suit with compassion and understanding. She beholds the beauty found in her ornate cup. The ever cascading sea flows next her, symbolising the ever changing nature of our subconscious. The Queen is the culmination of many of the ideals found throughout the suit.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck [here](#)

or check out one of our recent arrivals [here](#)

.
For more information about The Queen of Cups card, check out A. E. Waite's description [here](#)

Point 1 QUEEN

The queen sits in a relaxed position as she admires her cup. Sitting by the sea, she is connected with her inner emotions and subconsciousness. In her appreciation of beauty and her casual posture, she communicates her rule by aesthetics. Instead of might is right, the Queen of Cups motto is right is right.

Point 2 CUP

The cup in the Queen of Cups is unique in its design. It is the only cup in the suit that is visibly larger than normal. It is also the only cup that is closed. This illustrates the vastness of the soul and reveals the inherent mystery of our inner consciousness.

Point 3 CUPS HANDLES

The ornate cup handles appear to be two angels, guarding the cups contents. This is an allusion to the ark of the covenant, a divine container that had similar angels guarding it. The cup handles thus connect the card with the mysterious divine.

Point 4 GRAY THRONE

The Queen sits upon a great gray throne. The grayness of the throne illustrates the queen's unbiased nature. She does not rule for herself but for the ideal of aesthetic beauty.

Point 5 NYMPHS ON TOP OF THE THRONE

Above the queen's head, carved in the throne, are two water nymphs. These magical babies reiterate the sentiment found in the

Six of Cups

: Keep your inner child alive. These creatures of the ocean also connect us to our unconscious self.

Point 6 BLUE ROBES

The queens robes are flowing and blue. They reiterate the clothing worn by

The High Priestess

. From her robe comes all of the worlds oceans. Because water is associated with the subconscious, the queen wears her mind for all to see.

Point 7 PEBBLES

At the queens feet there are scattered stones of various colors. They reveal the beauty that can come from weathering the ocean waters of your subconscious. They also show that we need to gather up the hardships we have faced and arrange them in a beautiful mosaic, illustrating our lifes experiences.

Point 8 WATER

As has been stated multiple times in this article, water represents our subconsciousness. It is the element of the cups suit, stemming all the way back to the

Ace of Cups

. Like water, we must be nourishing to others and adapt to the hardships that come up in our path.

Tarot Reading

Upright

An Upright Queen of Cups encourages our desire to nurture those around us. While the

Knight of Cups

enacted his compassion everywhere, the Queen of Cups does so with more precision and more intensity. She allows people to come to her for guidance and healing. Without reservation, the Queen gives the people what they want, and then some.

Reverse

A Reverse Queen of Cups encourages you to direct all of your nurturing capabilities inward. While it is noble to spend a lot of your time caring for other people, you truly cant help them until you help yourself first. Take time out of your day to self-care, whatever that means to you: spa day, meditation, yoga, ice cream, etc.

(The above image is a copy of The Knight of Cups card in a standard Rider-Waite Tarot deck. The 7 symbols pointed out above are explained below.)

Card Description

The Knight of Cups engages the world with love and compassion. Calm and collected, he is the polar opposite of the sporadic

Knight of Wands

. This card appears when you want to enact your creative vision in the world. It encourages you to create and to lead with wisdom.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Knight of Cups card, check out A. E. Waite's description

here

.

Point 1 KNIGHT

The knight depicted in the card sits up straight on his horse and holds out a cup. The knight's overall demeanor is calm and poised, like still water. He isn't charging to battle. He isn't acting brash. He is instead allowing his wisdom to guide him.

Point 2 ARMOR/TUNIC

The knight wears a coat of armor over a red and blue tunic. The armor appears more casual than most sets of armor. With the breastplate up, the knight is ready to talk things out rather than fight. His tunic is decorated with fish, the animal spirit of the cup suit.

Point 3 WINGS OF HERMES

The Wings of Hermes on the knight's helmet symbolize his connection with divine creativity. Hermes was the messenger god and, like him, the knight is holding out the message of the cup, telling the world to love and create.

Point 4 HORSE

The horse in the Knight of Cups is the complete opposite of the horse in the

Knight of Wands

. Whereas the Wands horse was dynamic and leaping into battle, the Cups horse is relaxed and trotting along

the road.

Point 5 CUP

The knight holds out the obligatory cup. It is unclear if the cup is full of water or empty. It is also unclear if the knight is offering the cup to someone or requesting it to be filled. The knight can thus represent us in different times in our lives, like the two children in the

Six of Cups

.

Point 6 RIVER

The river in the Knight of Cups appears to be a reiteration of the river in the

Five of Cups

. Whereas in that card the river was daunting to cross, in this card the river seems easy to cross. It pales in comparison to the size of the horse, who appears undisturbed by the coming water.

Point 7 MOUNTAINS

The mountains in the background appear to be a reiteration of the mountains in

The Fool

card. They are the obstacles and hardships that come up in life. Instead of running away from them, the knight faces the mountains head on.

Tarot Reading

Upright

An Upright Knight of Cups encourages you to participate in the world with compassion and altruism as your goal. Whereas the

Page of Cups

emphasize the emotions and ideas theoretically, the Knight of Cups emphasizes them practically. He seeks to resolve injustice and to inspire hope.

Reverse

A Reverse Knight of Cups suggests that you have the ideas of the page but are not sure how to implement them like the knight does. You might be caught up in logistics or distractions. The Reverse Knight of Cups encourages you to take a step back and meditate on the creative project you want to manifest.

(The above image is a copy of The Page of Cups card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

The Page of Cups comes to the deck as a surprise as the fish comes to the page as a surprise. It is a card of epiphanies and new ideas. The card encourages the exploration of any new curiosity that comes to your mind, no matter how weird it may seem.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck [here](#)

or check out one of our recent arrivals

[here](#)

.

For more information about The Page of Cups card, check out A. E. Waite's description [here](#)

.

Point 1 PAGE

The Page of Cups begins the court cards in the cups suit. Everything about his posture suggests a lighthearted and relaxed nature. It brings to mind the childlike qualities of the

Six of Cups

. Be like the page and embrace life without taking yourself too seriously.

Point 2 CUP/FISH

As the salamander was the spirit animal for the wands suit, the fish is the spirit animal for the cups suit. The fish symbolizes happiness and creativity. It feeds into the greater metaphor of the cups suit, that water is a representation of our subconscious.

Point 3 SEA

While the wands suit focused on sand and the element of fire, the cups suit focuses on water. The fluidity of water illustrates our ranging emotions. The water baptizes us in a spirit of creativity and nourishes our deepest dreams.

Point 4 TUNIC

The page wears a tunic with designs of water lilies on it. This design brings the page back to the Ace of Cups

, the originator of the suit. The water lilies symbolize beauty emerging in often ugly places.

Tarot Reading

Upright

An Upright Page of Cups illustrates the emergence of an idea. Like the fish in the cup, this card surprises us. It encourages our creative pursuits and asks us to jump into the seas of ideas. Perhaps the silly image you cant get out of your head is worth pursuing. Perhaps a pleasant surprise is coming your ways. In any case, trust the left turns and explore whatever life gives you.

Reverse

A Reverse Page of Cups suggests that you are holding back from exploring an idea you have. Perhaps you are concerned about the ideas reception and its possible failure. Do not let those fears dominate you. Embrace your ideas and see them come to light. Even if they fail, those ideas can lead to better ideas.

Tens

May 14, 2025

James Daley

(The above image is a copy of The Ten of Cups card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

At the end of the numbered cards, we reach an environment of harmony and mutual love. The Ten of Cups expands upon the themes found in the

Ace of Cups

and roots them in the family. This card illustrates unconditional love and encourages us to seek out peace within this world.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Ten of Cups card, check out A. E. Waite's description

here

.

Point 1 ADULTS

The adults reiterate the ideas first found in the

Two of Cups

. Together, the adults form a partnership based on mutual respect and understanding. While the

Six of Cups

was cautious about adult life, the Ten of Cups embraces it as something noble when done with the right mindset.

Point 2 CHILDREN

The children in the card reiterate the harmony found in the

Six of Cups

without the caution of adult life. In this card, the family is bounded by love and affections. There is no division between adult and child life.

Point 3 COUNTRYSIDE

Just as the family shows no division between ages, the countryside shows no division between nature and humankind. In the countryside, civilization lives side by side with industry, symbolized by the house in the background.

Point 4 RAINBOW

As previously mentioned, this card is about harmony. What better way to illustrate that harmony than with a rainbow, the symbol of harmony between God and creation. The rainbow is also a symbol of creativity and love, two important themes in the suit of cups.

Point 5 CUPS IN RAINBOW

The arrangement of the cups in a semi-circle in the rainbow is an instant callback to the

Nine of Cups

. Whereas in that card, the cups were artificially arranged on a shelf, in this card, they are supernaturally arranged in a rainbow. Their positions recall the divine origin of the

Ace of Cups

and reveal the supernatural harmony within the card.

Tarot Reading

Upright

An Upright Ten of Cups illustrates harmony and satisfaction in your immediate relationships. While the

Nine of Cups

focused on accomplishments, the Upright Ten of Cups focuses on the people around you. It appears when there is no tension in your family, biological or chosen. The card thus encourages you to enjoy that harmony while it lasts. Use that peace to strengthen your relationships in the event of future trials.

Reverse

A Reverse Ten of Cups suggests an unfulfilled desire for familial satisfaction. We all want and need strong relationship ties however getting those ties can be messy in everyday life. There are longstanding feuds, intense differences of opinion, problematic histories, etc. Getting that fulfillment won't happen in a day. A Reverse Ten of Cups encourages you to begin working on those relationships so that one day you can be holding hands with them in harmony.

(The above image is a copy of The Nine of Cups card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

Called the wish card, The Nine of Cups illustrates our fulfilled desires. The gap in the Eight of Cups

is filled and the figure sits with confidence and satisfaction. Whenever you accomplish something great, remember to enjoy it.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck [here](#)

or check out one of our recent arrivals [here](#)

.

For more information about The Nine of Cups card, check out A. E. Waite's description [here](#)

.

Point 1 FIGURE

The figure in the Nine of Cups is the polar opposite to the one in the Eight of Cups

. While the previous figure walked away from his cups, this one proudly displays them. He sits on a bench with his arms crossed, exuding confidence. He embraces the cups given to him, without a hint of unsatisfaction.

Point 2 RED HAT

The red hat that the figure wears is a symbol for his passion and vitality. It is a reiteration of The Fools

red plume and the many other red hats that pop up in Tarot.

Point 3 WHITE ROBE

The white robe illustrates the figure's purity. Due to the figure's stance and the trophy-like display of his cups, the card could be interpreted as a depiction of pride. The figure's robe however complicates that interpretation and suggests that the figure has a healthy amount of confidence.

Point 4 CUPS

The alignment of the cups appears to be a reiteration of the Four of Cups

. While in that card, an additional cup was required to perfect the alignment, in this card, no additional cup is needed. All nine of them stand in a symmetric semi-circle, raised as if in a toast.

Tarot Reading

Upright

An Upright Nine of Cups illustrates fulfillment and satisfaction. Often called the wish card, an Upright Nine of Cups suggests that all of your hopes will come to light. It is a celebration of what you have achieved and a veneration of yourself. Indulge in the luxuries presented to you and take pride in the work of your hands.

Reverse

A Reverse Nine of Cups comes at a time of great accomplishment. Despite displaying all of your material gains, something is still gnawing at you. A Reverse Nine of Cups suggests that you look within you to find that complete satisfaction than an Upright Nine of Cups promises.

(The above image is a copy of The Eight of Cups card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

Like the

Five of Cups

, the Eight of Cups illustrates a sense of melancholy. In the card, a figure walks away from the cups, signalling a departure from the previous cards which were all about embracing the cups. As the figure walks into the unknown, so do we as we persist in the Tarot journey.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Eight of Cups card, check out A. E. Waite's description

here

.

Point 1 FIGURE

In the card, a figure is walking away from the cups and towards the adjacent mountains. It is unclear who this figure is. Is it you walking away from the eight cups? Is it somebody else walking away from you? While the figure in the

Seven of Cups

had a lot of choices, this figure abstains from any choice.

Point 2 MOON/SUN

In the sky, there are symbols for both the sun and the moon. While the sun typically illustrates our consciousness, the moon typically illustrates our subconsciousness. In the sky together, they represent the paradox of our total psyche.

Point 3 MOUNTAINS

The mountains in the card reiterate the mountains of

The Fool

card. They represent the difficulties in our journey. Like the fool, the figure in this card seeks to overcome the obstacles in his way.

Point 4 GAP IN-BETWEEN CUPS

There is the pyramid of cups. Walking through the gap is the figure. This gap furthers the sense of loss and dissatisfaction that plagues the whole card. The figure walks through the gap and through the card, searching for what is missing.

Tarot Reading

Upright

An Upright Eight of Cups suggests the need for some large departure in your life. Maybe your career or a relationship isn't working. Instead of fighting for something that isn't there, you might have to leave the situation completely and seek out the satisfaction you are longing for. It can be sad and scary as you approach the unknown mountains of life, but the journey can bring you the fulfillment you need.

Reverse

While an Upright Eight of Cups strongly suggest the need for change, a Reverse Eight of Cups is more ambiguous. You are unsure if you should stay or leave. A Reverse Eight of Cups thus suggests the need for an interior journey to determine the correct course of action. Meditate on the dissatisfaction you feel and use your intuition to seek out the right path.

(The above image is a copy of The Seven of Cups card in a standard Rider-Waite Tarot deck. The 9 symbols pointed out above are explained below.)

Card Description

The Seven of Cups is all about choices. A figure stands before an array of tempting gifts for the figure to choose from. Wisdom and discernment is required to sort the cautionary tales from the genuine treasures.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Seven of Cups card, check out A. E. Waite's description

here

.

Point 1 FIGURE

A figure stands before the cups, shrouded in a shadow. The blankness of the figure allows everyone to see themselves in the shadow. The figure is thus mysterious, yet familiar, like most of Tarot

Point 2 CLOUDS

The clouds in this card reiterate the divine intervention of the

Ace of Cups

and multiplies it by seven. The clouds also reveal that the card lies within the realm of the imagination. It is a dreamlike place where our desires are laid before us

Point 3 BLUE HEAD

While the figure is a mystery, the blue head is recognizable. It is a symbol of beauty and warns against narcissism. The blue head encourages you to see yourself in the figure, not in some artificial form of beauty.

Point 4 CASTLE

The castle is a classical representation of home and security. While these things are naturally desired, the castle also warns against being out of touch with the common man.

Point 5 JEWELRY

Jewelry is the classical treasure that tempts everyone. Instead of desiring wealth, look for something more substantial, more real.

Point 6 LAUREL

The laurel is an ancient symbol of victory and authority. Kings and Olympians used to wear them. While

everyone desires for success, note the skull design on the cup. Do not win the world just to lose your soul.

Point 7 DRAGON

The dragon might not be what it seems. To a western audience, a dragon is something to be feared. To an eastern audience, however, a dragon is considered good luck. It is unclear which type of dragon this one is. Perhaps the possibilities are too risky.

Point 8 SNAKE

The Snake is another dragon-like figure. Historically, snakes have been seen as conniving and evil, due to the book of Genesis. In some cultures, however, snakes are seen as wise creatures, their skin shedding seen as a metaphor for enlightenment.

Point 9 HIDDEN FIGURE

The last cup contains something shrouded from the figure, hidden beneath a cloth. While the other treasures are clearly visible, this one is a mystery. Like the figure itself, value is conveyed when one gives it value by uncovering the object.

Tarot Reading

Upright

An Upright Seven of Cups illustrates a time when there are multiple opportunities before you. These opportunities might not be as glamorous as they appear to be. Some might be dead ends. Others might actively set you back from where you were before. It's possible though that one can be incredible. Use your patience and wisdom to discern which opportunity to take and which to avoid.

Reverse

A Reverse Seven of Cups suggests choice paralysis. There are so many options that you are unsure which one to choose. This can be especially widespread in the age of the internet and the infinite scroll. Be calm and search your intuition to find the right choice that benefits you.

(The above image is a copy of The Six of Cups card in a standard Rider-Waite Tarot deck. The 5 symbols pointed out above are explained below.)

Card Description

The Six of Cups is almost a reverse of the

Five of Cups

. Whereas that card warns you about the dangers of harping on the past, this card encourages you to remember the good memories. It also illustrates the two states of being: the giver and the receiver. Whichever one you are right now, seek out community with those around you in the spirit of childlike innocence.

If you are looking for a deck of Tarot cards, check out our standard Rider-Waite deck

here

or check out one of our recent arrivals

here

.

For more information about The Six of Cups card, check out A. E. Waite's description

here

.

Point 1 BOY

The boy in the Six of Cups illustrates the part of us who wants to help. He bends over and presents the girl with a cup full of flowers. Such display of love and affection is what the suit of cups represents

Point 2 GIRL

The girl in the Six of Cups illustrates the part of us who accepts help. Helping others is a noble thing, but so is accepting help. Recognizing that you can't do everything by yourself is the first step to being able to help others yourself. Together, the boy and girl illustrate the community that was first depicted in the

Three of Cups

.

Point 3 WATCHMAN WALKING AWAY

In the background towards the left of the card, there is a man walking away. This shows that the community of the two children is removed from the hustle of adult life. It encourages us to remember our childlike qualities as we grow up.

Point 4 GIRLS HEAD

The girl's head contributes to the many paradoxes that litter the Tarot cards. The girl has a double face.

Depending on how you look at it, you can see a face to the left of her head or to the right of her head.

Point 5 BLOSSOMS IN CUPS

This is the only Tarot card with flowers in the cups. This reveals the blooming affection between the two children as well as the spiritual growth of the reader.

Tarot Reading

Upright

An Upright Six of Cups encourages you to remember the innocents of your childhood. While the Five of Cups

warned against staying in the past, an Upright Six of Cups suggests that you can use the past to inform your presents. Remember who you were and see if you are now who you would like to be.

Reverse

Like the Five of Cups, A Reverse Six of Cups warns that you are overindulging in the past and missing out on the present. A Reverse Six of Cups asks you to let go of the negative memories that you are clinging to. Additionally, it may ask you to reconnect with your inner child without devolving into immaturity.

Card Description

The Five of Cups is a card of testing. In the card, three cups have fallen while two cups remain standing. The card asks us if we should be more upset about the fallen cups or more grateful for the standing cups. The Five of Cups is thus a pectoral representation of the age old question: is a cup of water half full or half empty.

Point 1 FIGURE

Unlike the lone figure in the

Four of Cups

, who was in repose, the lone figure in the Five of Cups is in grief. He has his head bent downward and wears a black coat of mourning. The reason behind his melancholy is unclear. A popular interpretation is that the figure is sad at the barrier of the river, unaware of the bridge to the right of the card.

Point 2 FALLEN CUPS

At the feet of the figure are three fallen cups. These cups feed into the melancholy nature of the images. They represent the figure's past failures. Because there are more fallen cups than standing cups, the figure might be harping on the past without giving much thought to the present.

Point 3 STANDING CUPS

In juxtaposition with the fallen cups, the two standing cups represent the present opportunities that the figure has. Much like the floating cup in the previous card, these two cups are present yet unseen; in order to move forward, the figure needs to break from the past and acknowledge the gifts around him.

Point 4 RIVER

In front of the lone figure there roars a flowing river. Much like the

Three of Wands

, water in this instance acts as a separation. Constantly changing, the river gives the figure a sense of anxiety

over his authority. The roadblock this river creates feeds into the themes of the three fallen cups.

Point 5 BRIDGE

In juxtaposition with the river, the bridge in the far right of the card represents the figures hidden ability to overcome the roadblock. In this way, the bridge parallels the standing cups. The solutions to all of the figures problems exist near him; all he needs to do is to look for them.

Tarot Reading

Upright

An Upright Five of Cups often illustrates disappointment and regret. Maybe things didnt go the way you wanted them to. Maybe you are hung up on something in the past. Whatever the case maybe, in order to move on you have to recognize the things you have in the present. A life stuck in the past is a stagnant life. Be like the river and flow forward regardless of the obstacles you face.

Reverse

While an Upright Five of Cups suggests a past wrong done to you, a Reverse Five of Cups suggests a past wrong done from you. We all make mistakes. Thats part of being human. While its healthy to reflect on your past failures so that you dont do them again, it is unhealthy to keep harping on them. You have to forgive yourself if you want to progress on your road to enlightenment.

(The above image is a copy of The Four of Cups card in a standard Rider-Waite Tarot deck. The 4 symbols pointed out above are explained below.)

Card Description

The Four of Cups is a card about decision making and the gifts that pop up in our lives. In the card, a man looks

quizzically at the three cups before him while a fourth one, like the

Ace of Cups

, materialises in the sky next to him. Through his meditation, the man must reconcile what he has with what is given to him.

Point 1 FIGURES POSE

Breaking from the previous incrementation of figures in the Cups suit, the Four of Cups has a lone figure sitting on top of a hill. The figure's position suggests that he is thinking about something. He might be analyzing the three cups that stand before him. He might be trying to figure out how to add the fourth cup. He might not even be aware of the fourth cup. In any case, the figure is in planning mode.

Point 2 CUP IN THE CLOUD

The fourth cup in the cloud is a clear reiteration of the

Ace of Cups

. It reminds us of second chances as well as sudden bursts of creative energy. What's notable though is that it is unclear if the figure can see the cup or not. This encourages us to look out for the gifts in life; sometimes they are floating right next to us.

Point 3 TREE

The figure in the card sits at the roots of a tall tree. The tree represents a shelter in the wilderness. It also reveals that in order to meditate and be in repose, one must first satisfy our immediate needs. Meditation is a luxury that we must work hard to achieve.

Point 4 HILL

The figure sits atop a green hill, signifying the upper hand of his enlightenment. In many ways, this card is a juxtaposition of the

Seven of Wands

. Whereas in that card, the figure was at war on top of a hill, in this card, the figure is at peace on top of a hill.

Tarot Reading

Upright

An Upright Four of Cups is all about discernment in repose. You are trying to figure something out. Perhaps you have shut down a new opportunity due to disinterest or due to a lack of available time. Perhaps you are even unaware that a new opportunity is presenting itself to you. In any case, an Upright Four of Cups suggests that you rely on your intuition to make the difficult decisions that arise in your life.

Reverse

A Reverse Four of Cups suggests that you are entering a period of internal reflection. This can be daunting because everybody loves being rooted in society. Brief periods of introspection, however, can add significant depth to our lives whenever we re-engage with the people around us.
